[] Area Officer B, Federal Aviation Administration (FAA), Seattle Air Route Traffic Control Center, Auburn, Washington, provided a transcription prepared by his office of tape recordings of transmissions between the Auburn center and Northwest Airlines Flight #305, which was under hijack on November 24, 1971.

[] advised that after the plane took off from Sea-Tac on its way south toward Sacramento, California, the Auburn Center worked the flight from shortly after take-off until they handed the flight off to the Oakland Center, which occurred at the Oregon-California border. b6 Per FAA

Re memo of SA THOMAS J. MANNING 6/18/75

Updating information set forth on referenced memorandum. At this time there is nothing other than conjecture that [redacted] has knowledge of the location of a sizable amount of money.

On 6/20/75 [redacted] advised that [redacted] was to visit him [redacted] between 11:00AM and 3:00PM on this date. Due to this visit it was deemed advisable for writer to contact [redacted] again with possibility existing that [redacted] would prevail [redacted] to tell the truth since from personal observation by [redacted] and the writer both were of the opinion that [redacted] had knowledge which he was not imparting.

Writer on contact with [redacted] 6/20/75 determined that [redacted] had visited him and in presence of [redacted] [redacted] insisted that [redacted] tell the full story. He insisted that he did not find the four 20 dollar bills he had furnished serial numbers on.

Previous contact with [redacted] on 6/19/75 resulted in his stating that someone else [redacted] had approached him and furnished the serial numbers previously set forth in referenced memo. He insisted that he did not find the bills, that someone else [redacted] whose name he did not wish to divulge had found them in a 50' square at an unknown location in the woods. He spoke with this man and this individual was upset about having the money in his possession [redacted] and that the money could possibly be traced by serial numbers. He stated that he never saw the bills but they were described to him as new bills somewhat weather beaten, not folded or mutilated in any way. The bills were found within the past month. There was an indication from his conversation, according to [redacted] that the area was the Larch Mountain campground [redacted] within the past month. He stated there was no mention ever made of his having found the bills, a suitcase, or a sizable amount of money.

On 6/19/75 [] contacted his [] Olympia, Washington, advised him of the information developed to date and was told by [] that in the event there should be any danger to []

b6
b7C

On 6/20/75 when writer arrived [] [] had completed their visit and were then in Longview, Washington at the "also court house checking a record. [] telephonically contacted [] and was spoken with by the writer. He denied [] he had found the money, that there was a suitcase, that it had been found behind a log or there was a "considerable amount of money". It was determined through contact by SA [] at Wenatchee on 6/19/75 and through the telephone call that the name [] had come up when [] if he had any friends at [] and the name of [] was given. There is nothing at this time to indicate that [] have involvement together in this money matter.

b6
b7C

Seemingly the information re the 4 bills was relayed by phone from [] on 6/15/75.

b6
b7C

[] advised that after the telephone call from [] as follows: [] immediately after phone call; Night of 6/19/75 [] and on and off thru evening spoke with [] and was observed playing cards with []

b6
b7C

6/20/75 writer again interviewed [] for any other information he had decided to furnish. He again reiterated that the 4 \$20s were found by some one else who asked him to check their serial numbers to determine if they were "hot" bills. He never saw the money and generally stuck with his original story. However he did state during this conversation "personally I feel there is more" but refused to give any other information. He was asked if he would speak with the individual [] who he alleged had the bills, stated he would and if any other information was developed would notify the FBI. He was forcefully advised of violations of 18 USC 1001, aiding and abetting, accessory before and after fact, conspiracy and possession of stolen property problems he could be involved in if his story was not the complete truth.

b6
b7C

On 6/22/75 [] telephonically advised the writer that on 6/21/75 [] decided to take a picnic lunch to Larch Mountain Camp ground [] (a public camp ground). Driving up the road they found that due to culvert installation the road was almost impassable and [] actually had to remove several rocks from the road in order to drive to the campground.

b6
b7C

On arrival at the camp ground entrance he found a Texas car parked near the entrance with two apparently Mexican

females and a small child in the car. He drove back into the campground and then observed three Mexican looking men about 25' apart walking along in the woods and with their trousers water soaked. He got the impression they had been searching for something in the vicinity of the campground. [redacted] and advised of what he had found.

b6
b7C

[redacted] then decided to leave the campground and he would get out of the car down the road and attempt to observe the three Mexican men, two women and the Texas licensed cars. He did this and advised [redacted] of what he was doing and asked for assistance. At that time he heard one of the Mexican men running down the road and he left the area. He then notified the Clark County SO of his need for a deputy not knowing what the Mexicans were doing. At approximately 5:30 PM as the Texas licensed car came down the road the deputy and himself stopped the car, secured a consent to search and searched the car and found nothing except a few trees they had picked in the area. They admitted that they had been to visit [redacted] and then went up the campground road to look at the country side for they had never been in the area. They were released but their names and the license plate number was taken and is now [redacted]

b6
b7C

[redacted] advised that [redacted] had observed [redacted] with the five visitors and observed that he was obviously drawing a map. The Mexicans were asked about the map and stated that all [redacted] was doing was drawing their road out of [redacted]. [redacted] advised that when he first came upon the Mexicans at the campground it was about 3:40 PM and visiting hours [redacted] ended at 3:00 PM.

b6
b7C

He also stated that [redacted] had put his name on a waiting list for a phone call for Saturday evening but after the five Mexicans did visit he never made the phone call.

b6
b7C

He also advised that [redacted] have observed [redacted] engrossed in conversation for lengthy periods since [redacted] was first contacted by the FBI. [redacted] was advised that an agent would visit [redacted] on 6/23/75 and secure further information, license number of the Texas car and the names of the visiting Mexicans.

The following investigation was conducted by
SA [redacted]

On April 7, 1975, [redacted] also
known as [redacted]
[redacted] Des Moines, Iowa, phone [redacted] was
contacted at her request and advised as follows:

In late November of 1974, she observed a
newspaper article on page 10, section 1, Chicago Tribune,
Sunday, November 24, 1974, which carried a story captioned,
"D. B. Cooper, \$200,000 Leap Still a Mystery" with Portland,
Oregon, date line. This article concerned the skyjacking
of the Northwest Orient Airlines plane on Thanksgiving
Eve of 1971. A part of this article carried a portion of
a map and copy of "FBI Artist 1971 Composit Sketch of D.
B. COOPER."

After first seeing the article and the sketch
in this particular article, she immediately had a feeling
she knew the person involved, but did not have the nerve
to call the FBI or anyone else at that time.

On several subsequent occasions, she intended
to call the FBI and finally about 6:00 p.m., April 4, 1975,
she decided to contact the FBI at Davenport, Iowa, but
got no response so while she still had the courage, then
called the Portland, Oregon, Office.

The person she has in mind as a possible suspect

usually wears glasses. [redacted]

On April 7, 1975, [redacted] also
known as [redacted]
Des Moines, Iowa, phone [redacted] was
contacted at her request and advised as follows:

In late November of 1974, she observed a
newspaper article on page 10, section 1, Chicago Tribune,
Sunday, November 24, 1974, which carried a story captioned,
"D. B. Cooper, \$200,000 Leap Still a Mystery" with Portland,
Oregon, date line. This article concerned the skyjacking
of the Northwest Orient Airlines plane on Thanksgiving
Eve of 1971. A part of this article carried a portion of
a map and copy of "FBI Artist 1971 Composit Sketch of D.
B. COOPER."

After first seeing the article and the sketch
in this particular article, she immediately had a feeling
she knew the person involved, but did not have the nerve
to call the FBI or anyone else at that time.

On several subsequent occasions, she intended
to call the FBI and finally about 6:00 p.m., April 4, 1975,
she decided to contact the FBI at Davenport, Iowa, but
got no response so while she still had the courage, then
called the Portland, Oregon, Office.

The person she has in mind as a possible suspect
in this matter is [redacted] who was
born [redacted] He lives
some place in the Parkland, Washington, area, phone [redacted]
[redacted] and apparently has a prior arrest record, seriousness
of record unknown.

He is about 5' 11" tall, weighs about 175 pounds,
usually wears glasses. [redacted]

California, and Nevada, for many years, and lived in all of
those states.

Re Anchorage airtel to Seattle, 5/2/75.

On 5/14/75, [redacted]

[redacted] Anchorage, Alaska, advised he is employed at Century Automatic Sprinkler Company, telephone 349-1526. He has been in Alaska for a few months but originally lived in the State of Washington and has spent some time in Oregon. He indicated he has always been interested in police work and as such, is familiar with "D.B. COOPER" aircraft hijacking case. He inquired as to if the Statute of Limitations had run on this case and if there was a reward still being offered for its solution.

He was advised in the affirmative and then furnished the following information:

A female acquaintance of his in Anchorage, who he declined to identify, as he did not want to get her involved, told him of an incident that had happened recently. This female had been drinking with another female in Anchorage and the other female, after she had become quite intoxicated, related that she thought she knew who had been responsible for the "D.B. COOPER" hijacking. At the time of the hijacking, this woman had been attending [redacted] Longview, Washington. There was a white male, [redacted]

Re Milwaukee teletype to Bureau dated 10/8/75. 164-81-14517

Enclosed for the Bureau, Milwaukee, and Seattle is one xerox copy of map drawn by Bureau Agents concerning area near Barker Inn in Joshua Tree National Monument. Also enclosed is one photograph depicting area shown on map.

On the afternoon of 10/6/75, six Special Agents, along with Bureau metal detectors conducted a search of the area as described by [REDACTED] without locating any evidence of buried ammunition cans. These Agents remained on the site the night of 10/6/75 and resumed search as sunrise 10/7/75. They were joined by nine U. S. Marine Corps personnel equipped with Marine Corps metal detectors and entire area depicted on map was searched three separate times. Numerous metal items, such as nails, horse shoes, beer cans, etc. were located below the ground surface and dug up, however, again no ammunition cans or loot was located. Additional photographs of area were taken and are being processed. From explicit directions originally given by [REDACTED] it is obvious that this is the area he was describing. It is also apparent that he is completely familiar with the area. The only discrepancy in [REDACTED] is that there are seven concrete slabs located in the parking lot instead of five as [REDACTED] originally stated.

Gentlemen:

A few days ago I wrote to you mentioning the name of
[REDACTED]

b6
b7C

Perhaps I did not give you much to go on at that time.

Now I think I can do better. A few years ago there was a commercial airplane hijacked in Oregon. The hijacker was given the money he demanded, and a parachute. He escaped by parachuting from the airplane.

My recollection of this incident is that the hijacker was of an age that made it possible that he was a paratrooper during World War II. Certainly he had confidence in his parachute, and knew what conditions were required. He had the airplane slow down to a jumping speed before he jumped.

It is possible that he made things easier for you by applying for a passport soon afterwards, if not beforehand. It is also possible that he did not pose for his own passport photo, but used the photo of someone else, but I think not. He probably did not realize that nobody looks at those photos.

If you should get the passport photo of [REDACTED] and show it to the hijacked aircrew, you might have something right there. Even if the time limits for prosecution have expired, it should be possible to recover the money.

Gentlemen:

Several months ago [REDACTED] California
that your agency expressed appreciation of my comments concerning
[REDACTED]

b6

in the Los Angeles area. Actually, your agency should be appreciated, as all too often the damage has to be done before the victim is paid any attention. Your prompt action no doubt prevented many more people from losing money.

I do not really know that anything is wrong until something is very plain to see. That was the case with the above subject. I could only suspect because certain things did not seem right.

I am writing to you again now because I am not sure about something else.

In the area around Johnstown, Colorado there may be problems which have not been solved. If the victims have ever had any dealings with [REDACTED]
[REDACTED] and any such connection can be established, he is now at St. George, Queensland, some 350 miles west of Brisbane. [REDACTED] in the irrigation district there.

b6
b7C

While I have other comments to make, the average observer would be interested to notice that the above person is surprisingly active in church work, in Church of England, when prior to arriving at St. George he was a Lutheran. Naturally, the local people are very favorable, impressed, as a result. I am suspicious of people who try to convey impressions, when I know better.

Yours very truly

Dear [redacted]

I am heartened to know that some
body is after Cosper the Skyjacker &
you will find him in Ft. Lauderdale,
Florida. He also has the 200,000.00 intact
and his real initials is [redacted]
and he has had plenty of experience
in the Air & is the retired [redacted]

[redacted] and I received word
that he is waiting for the Statute of limitations
to run out before spending it, He hangs around
the Le Club a boat Club and is a

[redacted]
D.B. sound something alike and the
one who heard it could have been mistaken
anyway he asked for four parachutes
this means he had 3 keepers but they

b6
b7C

b6
b7C

-2-

There Spirits who knew how to dematerialize
Cooper & the money & the parachutes and
use teleportation and take him all
the way to Ft. Lauderdale Florida before
sitting him down in his own neighborhood.
then materializing him again this is why
no clues were found the parachutes are
probably still dematerialized somewhere
as this was supposed to be a perfect
Crime to encourage more Criminals to
get busy at their trade, the three evil
Spirits that was helping him was the Devil
and the Devils Sister and the Devils nephew
the Antichrist and these three also helped
the man who stabbed Senator Corey Daughter
to death and the knife is probably still
in a dematerialized state somewhere
but the mans name is [redacted]

and after he killed for the Devil the Devil
had him put in a position where he could
steal from Uncle Sam by Creaming [redacted]
[redacted] Las Vegas, Nevada. and he
is armed and must be considered as
dangerous this too was supposed to be

b6
b7c

encouragement to the other Criminals to
get going also the Devil has a Club and
at least part of the initiation is for
the prospective members to kill somebody
for the Devil before they can get in also I
know of two more murderers who killed
for the Devil then the Devil helped them get
elected to Public Office maybe we should
have all of the elected Officials in the U.S. a
Lie Detector test? One of these is

[redacted]
[redacted]
[redacted]
is an [redacted]
[redacted]

Dona Ana County, New Mexico And from
Anthony New Mexico the Sheriff's name there
[redacted] also there is another
murderer in Anthony New Mexico too
his name is [redacted] he is a
Dope fiend & pusher and when his wife
found out about it and protested he shot
her to death also this [redacted]
[redacted]

and the
should be asked about this too, taken given
a Lie Detector test and the others should

b6
b7C

should give the detective tests too also
all of them should be told that God loves
the Truth and wants to hear it from
them too and [redacted] missing
from East Seattle Washington by the name
[redacted] being held in
this area I believe 40 miles North East
of Deming on Route 36 there are a couple
of Ranches that sets back quite a ways from
the highway at this point, the [redacted]
[redacted] and he was driving a car
with a Texas license plate and the ~~first~~ three
numbers [redacted] and there
is a \$10,000.00 reward for this guy or getting
[redacted] home, I didn't get the letters
on the plate, I have written several letters
volunteering information to the Train Office
of the F.B.I. and my friends in the
spirit world and my psychic abilities tell
me that these letters never reach their
destination but are hidden in the "A"
file or under it or in back of it by a female
employee there, I wish you would help
Mr. Clarence M. Kelley find them and read
them then act on them fully about I told

b6
b7c

Him where there was two million Dollars
in Stolen Money buried in Nova Scotia &
where the Silver Dimes that were stolen on
the East Coast a truck load they went to the
Danbury Mint at Westport, Connecticut and
they haven't been smelted up as yet if
you hurry and the [redacted] name there
is [redacted] and as I understand
it these Silver Dimes belong to the U.S. Treasury
also I have some information about the
[redacted]

b6
b7c

there are three men prisoners in Statesville
Prison in Illinois who had \$300,000.00 and
evidently gave this money to a Catholic Priest
who died about a year ago in a Chicago

so \$200,000.00 and the \$300,000.00 is part of the
Million Dollar ransom some persons should
give these three Lie Detector tests too and
find out who the others were and where the
rest of the Million Dollars is The Parents lost
their Boy so the money should be recovered
and returned to the Parents this is my humble
opinion, also in this Area there are some
people living & operating Businesses who

got together and stole Indian jewelry and
Turquoise Stones from Albuquerque, New Mexico,
then about 3 months later they hit Santa Fe,
New Mexico, stole Indian jewelry then the next
hit was at San Francisco, California, then back
to New Mexico at Truth or Consequences now
these people have about 15 outlets so its
easy to see why they do it there is no fence
or middleman involved and the Devil has been
protecting them but the Devil & his seven angels
who arent have been overcome by the 55
Christian Elite in Heaven and me so it is
time to bring these people to justice and make
sure that they have a trade so when they get
out the next time they will be able to stay
out also live right not steal. So good
Luck to you.

Reference Bureau airtel to San Francisco, dated 10/30/75, with copies to Seattle and Las Vegas.

Enclosed under separate cover is part of an orange and white parachute.

This part of the parachute was obtained on 11/4/75, by SA [redacted] San Francisco Division, from [redacted] Napa, California, telephone number [redacted].

For information of the Laboratory, [redacted] by letter to FBI Headquarters on 10/24/75, advised he was in possession of this parachute that he felt might possibly be connected with the hijacking-extortion matter which occurred in the captioned case on 11/24/71.

SA [redacted] on 11/4/75, acknowledged receipt of [redacted] letter to the FBI Headquarters and obtained the parachute, securing possible Bureau interest.

It is realized that very little can be determined from examining this part of a parachute, inasmuch as it, apparently, has been in the mountains for some time and has been partially eaten by various rodents in the mountainous area. However, since it was obtained by [redacted] hidden under a log in very peculiar circumstances near Sardine Mountain, California, with an elevation of 7,575 feet, which is located out of Sierraville, California, located in a remote area between Sierraville, California, and Reno, Nevada, [redacted] noted

that the plane carrying the hijacker in instant case, traveling from Seattle to Reno, would have probably traveled over this area at 10,000 feet to avoid the Gardine Mountains.

[] also stated he was formerly in the U. S. Forest Service as a smoke jumper in fire prevention and that this parachute is similar to the type the forest service used except a much smaller parachute.

b6
b7C

[] also speculated that in the point where he located the parachute, hidden under a log, was approximately one mile southwest of a 200 acre clear meadow and approximately one mile northeast of a 200 acre meadow in the Lemon Canyon area.

b6
b7C

One copy of this letter is being disseminated to Las Vegas for their information in view of the referenced Bureau airtel.

The Bureau Laboratory is requested to examine this parachute in an attempt to determine the type of parachute it is and individuals who might use this type of parachute and coloring, such as the U. S. Forest Service. Will also attempt, if possible, to determine the age of the parachute or how long it has been in this remote area, concealed under a log. At the conclusion of whatever examination the Laboratory can make of this parachute, it should be returned to the San Francisco Division and results furnished to the Seattle and Las Vegas Offices.

At the outset of the telephone conversation [redacted] advised he had a two-fold purpose for furnishing the information. TO : DIRECTOR, FBI (164-2111)

SUBJECT: NORJAK
OO: SEATTLE

DATE: 11/7/75

Reference Bureau airtel to San Francisco, dated 10/30/75, with copies to Seattle and Las Vegas.

Enclosed for the Seattle Division is one AAA Map of the Feather River and Yuba River, California, area.

One copy of this letter is being furnished to Las Vegas and Sacramento Divisions for their information in the event the Office of Origin (Seattle) desires additional information relating to the following facts set forth, which are certainly unusual.

For the information of Sacramento, [redacted] Napa, California, telephone number [redacted] by letter to the Bureau, dated 10/21/75, advised he was in possession of a parachute that he feels might possibly be connected with the hijacking-extortion matter which occurred in the captioned case on 11/24/71.

It is noted that the enclosed map has marked on it, by SA [redacted] of the San Francisco Division, where the parachute in question was found by [redacted] and also the area where an abandoned car is located.

To get to the area marked on the map, one would take a dirt or gravel road out of Sierraville, California, going southwest on Lemon Canyon Road, to the junction of Bear Valley Road. You then proceed on past the Bear Valley Road, approximately five miles on Lemon Canyon Road, to a point where the Lemon Canyon Road is divided, with one part going northwest toward Sardine Point, with an elevation of 7,575 feet and the other main portion of the road going southwest.

[] advised he was hunting at a point going toward Sardine Point, past the first dog-leg curve, which is about a mile from this point, up to the second dog-leg, which is probably about two miles from this point on the Lemon Canyon Road.

b6
b7c

[] noted that he went from the top portion of this second dog-leg road down to the road below, which he estimated to be maybe 200-400 yards across. The parachute was located under a snag tree, about 18 inches in diameter, over the top of another log, causing it to be about six inches off the ground. The parachute was under this portion and had it have been pushed back two feet further, would have been out of view. He also noted that these logs were about halfway between the upper road and the lower road or about 100-200 yards from each road, the upper and lower roads. [] advised he estimated he started down from the upper road to the lower road across this area about 200 yards south of the edge of the dog-leg or switchback in the dirt road. The parachute, which is orange and white in color, has been furnished to the Bureau. The parachute, according to [] was all twisted up, as if to make a rope out of it, and then rolled up prior to being out under the log. He estimated that there were approximately seven panels and it appears as if it had been cut in half, indicating the jumper may have gotten hung up in a tree.

b6
b7c

[] further noted that from the upper portion of this road, he could look down across the canyon to the lower road, where he had his camper-pickup parked by a culvert and that is where he was heading at the time he found the parachute. He advised the area around the parachute was rocky, with very little timber and only a few windfalls. He said approximately 30-50 feet from where he found the parachute, under the log, he located, [] two trees together, one being a yellow pine and the other a real big juniper tree, on the hill. He said in looking up the one tree, he noted that near the top, about 65 feet up, was evidence that a limb, approximately one and one half inches in diameter, had been broken off. Below this, approximately 10 feet, he noted another limb, two and one half inches by about three inches, had been broken off and below this, all the way down the tree, were other limbs that appeared to have been broken off. He said he could not

b6
b7c

SF 164-220
FNF/dmp

estimate the age of these limbs or when they were broken off but that they did not appear to have been recent. [redacted] advised he speculated that maybe the parachute had been cut in half to make a rope so that the jumper could have lowered himself from the tree if he had been hung up in the tree. He then could have placed half of the parachute under the log, where it was found, and kept the other half to keep warm and maybe use the harness on the parachute as a pack rack to carry out whatever he had with him.

b6
b7C

[redacted] advised he was formerly in the U. S. Forest Service and he noted that the parachute he recovered was similar to parachutes used by the forest service smoke jumpers. However, the parachutes the forest service used, although similar in color, were usually larger than this particular one.

b6
b7C

[redacted] further noted that approximately one mile northeast of where he found the parachute, near the Bear Valley Road, is a grass level meadow area, about 200 acres in size. In addition, south of this area, approximately one mile down Lemon Canyon Road, is another grass meadow flat area, approximately 200 acres in size.

b6
b7C

In addition, [redacted] noted that there is a very small airport at Sierraville, California, and that the beacon light from this airport shines in the direction of where the parachute was found.

b6
b7C

[redacted] advised he recalled that the hijacker in the instant case had the pilot fly at an elevation of approximately 10,000 feet en route to Reno, Nevada. [redacted] noted that on the map, the elevation of Sardine Peak is 8,134 feet, whereas the elevation at Sardine Point, in the same general area, is only 7,575 feet. [redacted] advised the hijacker may have known this and planned to land in one of the two above described meadows and missed his target but realized the plane would have to fly at 10,000 feet in order to miss Sardine Peak.

[] said he did not dig around or explore under the log because he did not want to ruin any possible evidence that could be located there if this was the parachute the Subject used.

b6
b7C

[] advised another strange thing is that going southwest on Lemon Canyon Road from the junction, about five miles from where he turned northwest on the junction, was located an old car, white in color. He advised this car was also located in a very strange place. He noted that it had, apparently, been driven off the dirt road, up under the trees. He said it is now on its side but obviously had to be driven to the point where it is now instead of towed there and abandoned. He said there are no houses or any people in this remote area, where the car and parachute were located, where he was deer hunting.

b6
b7C

[] said he believed that if aerial photographs could be made of the area and shown to him, he could identify the tree above that had the broken branches off and then point out the log. He said he would also be willing to accompany Agents to this remote area to search if there was any possibility that this could be where COOPER jumped.

LEADS

SEATTLE

AT SEATTLE, WASHINGTON: 1) Will contact the pilot of the plane in question and exhibit to him the enclosed map in an attempt to determine whether or not he would have flown anywhere near the area where the parachute was found, south and west of Sardine Point, en route to Reno, Nevada, where he, apparently, landed. No

No lead is being set out for Sacramento at this time to go to this area in an attempt to locate the car and determine the identity or how the car got to the area. It is noted [] [] speculates that the jumper may have had the car parked there as a means of escaping after he landed but because of an injury or some mishap, never made it to the car.

b6

2) Will attempt to determine whether or not COOPER may have had in his possession a small orange and white type parachute as an emergency chute.

It is noted [] appears to be a very reliable citizen in Napa County, California. The indices of the San Francisco Division disclose he was interviewed some years ago as a reference on []

FROM : SAC, SAN FRANCISCO (164-220) (P)

SUBJECT: HORJAK
OO: SEATTLE

Reference Bureau airtel to San Francisco, dated 10/30/75, with copies to Seattle and Las Vegas.

Enclosed for the Seattle Division is one AAA map of the Feather River and Yuba River, California, area.

One copy of this letter is being furnished to Las Vegas and Sacramento Divisions for their information in the event the Office of Origin (Seattle) desires additional information relating to the following facts set forth, which are certainly unusual:

For the information of Sacramento, [redacted] Napa, California, telephone number [redacted] by letter to the Bureau, dated 10/21/75, advised he was in possession of a parachute that he feels might possibly be connected with the hijacking-extortion matter which occurred in the captioned case on 11/24/71.

It is noted that the enclosed map has marked on it, by SA [redacted] of the San Francisco Division, where the parachute in question was found by [redacted] and also the area where an abandoned car is located.

To get to the area marked on the map, one would take a dirt or gravel road out of Sierraville, California, going southwest on Lemon Canyon Road, to the junction of Bear Valley Road. You then proceed on past the Bear Valley Road, approximately five miles on Lemon Canyon Road, to a point where the Lemon Canyon Road is divided, with one part going northwest toward Sardine Point, with an elevation of 7,575 feet and the other main portion of the road going southwest.

Q3³ Parachute

Result of examination:

Specimen Q3 consists of the remnants of an orange and white parachute, mostly deteriorated. The FBI Laboratory does not have the necessary reference information to determine the origin or normal utilization of the Q3 parachute.

Because of the climatic variables involved, the age of Q3 and the duration of time it was concealed under a log cannot be determined.

[redacted] He seemed to be
real cool & calculating in his
actions.

DB Cooper 14063

He became overextended on credit & wasn't paying his bills so he disappeared in 1970 (I believe). He had spent several years in the area & then was gone. I talked to someone who said they thought he had gone to Alaska. As far as I know, he is +

Dear 

Unfortunately, there remains only a limited number of copies of the ransom list. It therefore is not possible to send copies of the list to everyone requesting them.

Might I suggest, if you have a serial number you wish to check, to contact your local sheriff's office or bank as they should both be in possession of the ransom list.

As you know, it is only through the cooperation by citizens such as yourself that this crime might be solved. Thank you for your interest in this matter.

Sincerely,

On this date [redacted] Portland, Oregon telephonically contacted writer re captioned matter. X

b6
b7C

He stated that he has received several news clips re this matter and 4th. anniversary of offense on 11/24/75. He specifically referred to a speech writer made to Footprinters International re NORJAK at Aberdeen, Washington, as reflected in [redacted] on 12/24/75.

b6
b7C

[redacted] stated that heard his camera crew plan to be in the Longview area on 12/8, 9 and 10/75 to film footage re widening of IS 5 and other matters of interest to their viewing audience in Oregon and Washington. He stated that, in view of therecent anniversary of NORJAK matter, that he desired an interview with the FBI concerning this matter and stated he felt this could possibly generate interest in viewers who may have information of value in this matter but have not come forward at this time.

b6
b7C

He stated he would be in Longview at 10:00 AM, 12/10/75 and hopefully interview with FBI could take place at that time.

In view of negative efforts to date to locate and/or identify UNSUB in this matter the writer feels such an interview has potential investigative and lead value, and would excellent vehicle for SAC to again acquaint public with facts of this matter.

Writer will be in Hq City on 12/9/75 for file review for discussion re above matter if such is deemed advisable.

[redacted]
[redacted], Quartermaster School, Fort Lee, Virginia; home address - [redacted] Fort Lee, Virginia; home telephone number - [redacted] examined the remains of an orange and white parachute which had been recovered under a log near Sardine Mountain, California.

b6
b7C

[redacted] advised, after carefully examining this parachute, that it appeared to be a 28 foot emergency-type parachute which had been manufactured by the Army and Air Force prior to 1955 or 1956.

b6
b7C

[redacted] advised that to the best of his knowledge, this type parachute had been discontinued in 1955 or 1956 in favor of multi-colored type parachutes. [redacted] advised that this type parachute was used by the Army and Air Force as an emergency parachute in fixed wing aircraft of the U-6-A and U-1-A types.

b6
b7C

[redacted] noted that the connector links and D-rings were no longer present on the parachute. [redacted] advised if issued by the military, this type parachute could not be steered; however, this type of parachute has been made available through surplus sales to members of Sky Clubs and jump enthusiasts who usually alter the parachutes so that they can be steered.

b6
b7C

[redacted] advised that he could not determine whether this parachute, in particular, had been altered in view of the fact that it has deteriorated due to the effects of the elements on it.

b6
b7C

[redacted] advised that this parachute could have been used either as a front-pack or a back-pack. He advised that he could not determine which way it had been used in view of the fact that the connector links and D-rings were not present.

He advised that 28 foot emergency parachutes are commonly used by overweight individuals as front-packs. [] advised that this parachute, when compacted, could be carried in a briefcase or shopping bag.

b6
b7C

[] advised that these parachutes were available all over the United States in view of the fact that they had been sold as surplus by the military.

b6
b7C

[] advised that the military placed a ten year maximum use date on a parachute, and therefore these parachutes would have been sold as surplus no later than 1965 or 1966.

b6
b7C

[] advised that this ten year date is not honored by Jump Clubs and, therefore, many of them still use this type parachute.
